### MEET OUR PRINCIPAL

Salam Eleikum!

My name is Ibtihal Hamie Janbay. My BS in Environmental Sciences was obtained from Notre Dame University in Beirut, Lebanon. My first Ms. in Environmental Management was obtained from the University of San Francisco in San Francisco, California and my second Ms. in Environmental Engineering was obtained from Oregon Health and Science University in Portland, Oregon. Currently, I obtained my Doctorate from Grand Canyon University with an emphasis in Organizational Leadership and Development in Higher Education. I feel blessed to serve at the IEFAZ school and assist our young generation throughout this amazing life-changing adventure as an educator.

On a professional scale, I worked as an environmental health and safety specialist, an environmental engineering researcher, an industrial hygienist, and a green entrepreneur consultant with UNDP. In 2014, teaching in higher education became my favorite workplace where I had the privilege to teach in private and public educational institutions. At this time, I am a professor that teaches chemistry and environmental sciences at one of Maricopa Community Colleges and at GCU.

When I am not at work or school, my husband Labib who is a telecommunication engineer and I, are Alhamdulillah enjoying raising three beautiful kids Sara (16), Ali (14), and Adam Mohamad (10). We enjoy travel, sports, food, and being with great friends and family.

With Allah's blessings!
